LONDON MARKET RULED GENERALLY STRONG.

STRENGTH REFLECTED IN NEW YORK.

Bank Statement Forecast Indicates Some Decrease in the Surplus Reserve.

REPUBLIC SPECIAL. REPUBLIC SPECIAL.

New York, June 29.—The London market showed considerable strength at the opening and maintained it well all day, closing block Exchange pesterials. Carrected daily for pretty nearly at best. There was a good bonds and stocks, 449 Onive street:

Close pretty nearly at best. There was a good deal of covering of shorts by the Continent, Stocks. Sales Open High Low Close Yes. and the general market was fairly firm. Consols were unchanged on the day. Money conditions indicated rather unexpected easo over the end of the half year, in spite of the fact that exchange in Paris was low enough to call for the expert of gold from London. The interest position in Berlin showed considerable improvement from a financial point of view, to judge by the fact of their buying stock in London. The Chiand left the question of the fate of the

European envoys still unsettled, Strength was shown at the opening of the local market, and although the trading tended to become narrower, it was fairly well maintained all day. The pressure upon the shorts was sufficient to cause a good deal of buying for that interest, and there were just enough purchases of long stock to stimulate a fairly healthy market. Commission-houses, however, were not doing much busin ss and the large interests of the street, so far as could be seen from the buying, with possibly the exception of the Morgan following, were not taking hold. The strength in wheat did not seriously af-fect the granger stocks, and the buying in Southern Pacific was not noticeably good, especially in view of the fact that there was no scarcity in that stock. The buying of Reading first was also good, and insiders

continued very easy.

The market continued firm up to the close, but was still exceedingly narrow and pro-fessional. The best support came from shorts and the Wormser following, but the Morgan interests were reported buyers of Northern Pacific, and the buying in Read-ing first was better than the selling. The bank statement is not expected to be a good one, but the effect of the July disburse-ments in the following week offset this. The Chinese position shows practically no change, and the Government there seems as difficult to find as the European and American envoys. In these circumstances a campaign of considerable magnitude is inevitable. The fact that all the Powers are more or less involved, although it seems to complicate the case, is really a factor for peace. It is to be expected that

shows considerable strength, but there is still an absence of anything like outside interest. The short account is the best support, and the business of the next few days may test whether it is strong enough to bring in the public.

the presence of the others will prevent Russia and Japan from coming to blows.

The spring wheat reports from the Dake of the calamity point. Good rains are anything but encouraging and the damage there comes nearly to the calamity point. Good rains are reported in the Missouri Valley. The Northern Pacific earnings for June will have an increase of about \$200,000. It is reported that to offset the reduced wheat tonnage the company will for some time suspend all extraordinary improvement work. The forecast of the bank statement tomore indicates some decrease in the surplus reserve, due to Treasury withdrawais from the banks. The market generally

New York Market Goasip.

The following synopsis of the guestip in regard to the leading features of the New York market was received by D. R. Francis, Ro. & Co. New York, June 29.—Louden follows our market again to-day, and in the first hour arbitrace brickers bought about 19,000 shares, including small amounts of Atchtson preferred, L. & N. Southern Factile, and Ontario and Western. There was considerable calling of loans this morning, in view of the preparations for the heavy disbursments beginning next seek, and a slight and temporary hardening in the raise for call money.

In the last hour National Steek preferred was bought suddenly, movement being in a line with the open manipulation of other steel stocks.

A built clique, often active in Sugar, started a tiles stock was bed up sharply whenever any attempts by shorts were made.

B. & O. was strong on buying by bankers prominent in the reorganization of company, who are still interest of the market of the comparing state that none of the insiders have soiled any of their stock, but it is known that a prominent speculative interest closed out a large line of a feature of the market by load interests, and a large part of the selling for some time has been for about a large line of a large New York Market Gossip.

LOCAL STOCKS AND BOXDS.

A Slow and Fentureless Market With

There was not a sinule feature to the market orday nurside of its duliness. Smilers appeared to be in hing in interest and it was evident had fewer orders than usual and besides it was entirely too hot for them to exert themselves. There were fewer questions than usual made this morning and the dealings were small.

-United Railways were the principal favorites and the few orders executed were chefly in these. The preferred stock was sominally dull at \$61.75 led and few sked, but the common was in demand and steady and too shares rold at 226.

-There was more disposition shown to trade in United to this morning than has been shown of late and during the day layers and sedera stoces-deal in coming together and Railway sed at \$61.75.

The only other trade made besides those in ewer orders than usual and boddes it was enthe only other trade made best-less those which become in American-Nettle, 201 phonormal of the control of the To-day's clostes quotations:
